

Installation Instructions

LT17 Multi-Rack with Lid

for Utility Landscape Trailers

Holds most hedge trimmers, chain saws, and hand blowers.

Before you begin installing:

1. Read and understand these instructions completely.
2. Verify that you have received all the parts listed in the bill of materials.

WARNING

Always wear safety glasses when using power tools.

Tools Required:

- (2) 9/16" Wrenches and/or Sockets
- (1) Electric Drill
- (1) 13/32" Drill Bit

Utility Trailer Installation Instructions

1. Place the Multi-Rack on the rail or fender of your utility trailer where you would like it mounted. **Make sure the rack does not extend past the widest part of the trailer.** If you are mounting the Multi-Rack close to another rack or obstruction, verify that the tools you would like to place in the rack fit in the area selected.
2. Mark the position of the holes on the trailer rail or on the fender. Make sure the marks made on the trailer rail are centered in the rail angle's web. If you are mounting the rack on the trailer's fender and wish to use the hedge trimmer attachment, you must use the center hole where the bracket is to be mounted, and drill a hole in the rubber pad.

WARNING

Check for locations of brake lines and electrical wiring etc., before drilling any holes. Any damage to trailer during installation is the installer's sole responsibility.

3. Drill 13/32" holes in the positions marked.
4. Bolt the rack to the trailer with the 3/8-16 x 1-1/4 screws, 3/8" flat washers, and nuts supplied (2 or 3) and tighten. If the hedge trimmer bracket is used, omit the washer under the head of the screw that holds it. Hedge trimmer bracket must be mounted in the location shown in illustration.

Bill of Materials

ITEM	PART NO.	QTY.	DESCRIPTION
1	3045210	1	Multi-Rack with Lid
2	3000057	1	Bracket, Hedge Trimmer, Multi-Rack
